RE: I-91 ROCKINGHAM BRIDGES

The following is the update of the construction to take place on the I-91 Rockingham Bridges #24S & 24N over the Williams River beginning June 12, 2017.

Monday thru Friday:

- Southbound left lane is closed on I-91 over the bridge to thru traffic for the duration of the project as cross over construction continues. Traffic will be merged into the right lane prior to the bridge.
- Continued daytime northbound left lane closures on I-91 over the bridge.
- Exit 6 On-Ramp construction continues. The ramp is open to traffic with traffic control present.
- Truck traffic continues on Golden Hill Road delivering construction materials and stone fill to gain access under the bridge. Traffic control will be present.

The posted speed limit within the construction zone will be reduced to 55mph and will be strictly enforced.

On July 5, 2017 the Exit 6 I-91 northbound on-ramp will be temporarily closed and a signed detoured along Route 5 will bring you to the Exit 7 I-91 northbound on-ramp. The ramp is anticipated to be closed for approximately 2 weeks.
