RE: **I-91 ROCKINGHAM BRIDGES**

DATE: 06/16/17

The following is a more detailed update of the construction to take place for the I-91 Rockingham Bridges #24S & 24N project over the Williams River for the week beginning June 18, 2017.

Golden Hill Road activities:

Monday thru Friday:

- Continued steady truck traffic with traffic control present.
- Pumping of stream water around the work area will continue. This pump does have to remain on continuously to achieve the goal.
- For the safety of the public, fencing will be installed within the work zone under the bridge.

I-91 activities:

Monday thru Friday:

- Continued installation of concrete barriers in the southbound lane.
- Median crossover work continues.
- Continued daytime northbound left lane closure.

Motorists merging onto I-91 via Exit 6 northbound on ramp are urged to use extreme caution and yield to I-91 northbound traffic.

Please note the posted speed limit on I-91 within the construction zone will be reduced to 55mph and will be strictly enforced.
